

Prayer from Don't Look Back Video

Today, YAHUAH for everyone of our brothers and sisters watching and listening. You have a plan for each of Your children. May they walk completely in Your ways, made apart unto You. May they come out of Babylon's systems, strategies, plans, and all the ways of this world so that they can fully walk with You.

May their hearts be fully devoted to You. We pray that their love for You would continue to increase and that they would love You with all their heart, soul, mind, and strength. May they guard Your Torah and walk in Your truth, being lights to those around them.

For those You have called to sever certain relationships, we pray that You would give them boldness and the courage to obey You quickly and fully. Help them not to look back, but to keep their eyes fixed on You.

Where there are challenges in their lives, we ask that You strengthen them and give them endurance. May they remain steadfast in belief and overcome every obstacle placed before them.

If it be Your will, place qodesh people in their lives to help, guide, encourage, and strengthen them in truth. Help them grow in Your ways and become examples that draw others unto You.

May the fruit on their tree be abundant, and may they flourish in all that You call them to walk in. Please guide, protect, and keep them.

We thank You and esteem Your Qodesh Name. All praise and honor belong to You, Most High YAHUAH. We ask these things in the Name of Your Běn, Yahusha. Today (Thank you), YAHUAH. Ahmein.
